

**Have you ever wanted to know which companies REALLY produce APIs and their intermediates in China? Perhaps you are frustrated by databases that turn out just to contain lists of trading companies**

# SNAPI - Sino API intelligence

The best database of Chinese API producers yet produced  
AVAILABLE NOW AT [www.snapi.eu](http://www.snapi.eu)

Published by **WiCON International** and **Brychem**

**Brychem** has been providing consulting services on the international fine chemical industry since 1992. During this time, it has accumulated a vast amount of experience on the development, production and sale of pharmaceutical fine chemicals. In January 2006, Brychem agreed to set up a partnership to gather information on the production of APIs and intermediates in China with its long-time associate, WiCON International. Founded by James Shen, Beijing-based WiCON International has been reporting on the Chinese pharmaceutical industry since the late 1980s.

The result of this collaboration has been the appointment of a team of dedicated researchers, which have compiled the first properly researched guide to this sector of the global API industry. Features include:

- ◆ Online access is fast and easy to use. Profiles added and updated *monthly*
- ◆ Contains hundreds of carefully validated company profiles
- ◆ Chinese and english name is shown for each producer
- ◆ Lists thousands of APIs and intermediates
- ◆ Includes regulatory compliance and DMFs, COSs and other certifications
- ◆ Search by company, by API or by intermediate
- ◆ Display on-screen then print off (or cut and paste) comprehensive profile
